¹Due to rounding, the allocation table may not add up to 100%. Credit ratings by S&P/Moody's/Fitch.

The weights % for "Cash and cash equivalents" shown in the allocation tables could include fair value pricing adjustments made to the fund. Fair Value Pricing Adjustments may be made to Fund's NAV per Share when the Board of Directors of the Management Company is of the opinion that the last available price does not truly reflect the fair market value of the Fund due to events that may be occurred between the determination of last available price and the determination of the Fund's NAV per Share at the valuation point.

This document is issued by Eastspring Investments (Luxembourg) S.A., 26, Boulevard Royal, 2449 Luxembourg, Grand-Duchy of Luxembourg. The issuer makes no guarantee of the accuracy and completeness of this document and is not responsible for error of transmission of factual or analytical nor shall it be liable for damages arising out of any person's reliance upon this information.

Eastspring Investments is an open-ended investment company with variable capital ("Société d'Investissement à Capital Variable" or "SICAV") registered in the Grand Duchy of Luxembourg, which qualifies as an Undertaking for Collective in Transferable Securities ("UCITS") under relevant EU legislation. The Management Company of the SICAV is Eastspring Investments (Luxembourg) S.A. ("Management Company").

All transactions into the SICAV should be based on the current Prospectus and the Key Investor Information Document ("KIID") of the relevant sub-fund in applicable local language. Such documents, together with the articles of incorporation, the latest annual and semi-annual reports of the SICAV, may be obtained free of charge from the Management Company.

Prospective investors are invited to further consider the risk warnings section of the Prospectus. This document is solely for information and does not have any regard to the specific investment objectives, financial or tax situation and the particular needs of any specific person who may receive this document. This document is not intended as an offer, a solicitation of offer or a recommendation, to deal in shares of securities or any financial instruments.

Please refer to the offering documents for details on fees and charges, dealing & redemption, product features, risk factors and seek professional advice before making any investment decision. **An investment in the SICAV is subject to investment risks, including the possible loss of the principal amount invested.** The value of shares in any sub-fund of the SICAV and the income accruing to the shares, if any, may fall or rise. Where an investment is denominated in a currency other than the base currency of a sub-fund of the SICAV, exchange rates may have an adverse effect on the value price or income of that investment. Investors should not make any investment decision solely based on this document. Investors may wish to seek advice from a financial adviser before purchasing shares of any sub-fund of the SICAV. In the event that an investor may choose not to seek advice from a financial adviser, the latter should consider carefully whether the sub-fund in question is suitable for him.

Past performance and the predictions, projections, or forecasts on the economy, securities markets or the economic trends of the markets are not necessarily indicative of the future or likely performance of the SICAV. There are limitations to the use of indices as proxies for the past performance in the respective asset classes/sector.

Any sub-fund of the SICAV may use derivative instruments for efficient portfolio management and hedging purposes.

This paragraph is only applicable to sub-funds of the SICAV, which distribute dividends. Any sub-fund of the SICAV may, at its discretion, pay dividends out of capital or gross income while charging all or part of its fees and expenses to its capital, resulting in higher distributable income. Thus, any sub-fund of the SICAV may effectively pay dividends out of capital. Payment of dividends out of capital (effective or not) amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment, which will result in an immediate reduction of the net asset value per share. The distributions, including amounts and frequency, are not guaranteed and are subject to the discretion of the SICAV's Board of Directors. Past dividends are not a forecast or projection of future distributions.

European Union Sustainable Finance Disclosure Regulation (EU SFDR) aims to help investors by providing more transparency on the degree to which financial products have environmental and/or social characteristics, invest in sustainable investments or have sustainable objectives. The regulation requires specific firm-level disclosures from investment advisers to the degree to which sustainability is a consideration. An Article 8 Fund under SFDR is defined as a Fund which promotes, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices.
