

Key Investor Information

This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

US Investment Grade Bond Fund

A Sub-Fund of Eastspring Investments - Class R - LU0865489925
This Sub-Fund is managed by Eastspring Investments (Luxembourg) S.A.

Objectives and Investment Policy

Objective The Sub-Fund aims to earn regular income and to increase the value of your investment over the long term.

Portfolio securities The Sub-Fund invests mainly in bonds/debt securities (including up to 15% of its net assets in CMBS, MBS and ABS) that are issued in the United States, are denominated in US dollars, and are within the top four categories for credit quality (BBB- or above).

Investment process In choosing investments, the investment manager combines overall economic and credit research with research into individual issuers.

The Sub-Fund may invest no more than 25% of its net assets in debt instruments with loss absorption features out of which up to 5% of its net assets may be invested in Contingent Convertible Bonds ("CoCos") with loss absorption features.

The Sub-Fund may use derivatives for efficient portfolio management or to manage risks.

Benchmark This Sub-Fund aims to outperform the return of ICE BofAML U.S. Corporates BBB3-A3 Rated Index ("Benchmark"). The Sub-Fund is actively managed. The Benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints. The majority of the Sub-Fund's exposure to bonds will refer and have similar weightings to the Benchmark. The Investment Manager may use its discretion to invest in bonds not included in the Benchmark in order to take advantage of specific investment opportunities. It is thus expected that the performance of the Sub-Fund will to a limited extent deviate from the Benchmark.

Base Currency USD

Recommendation This Sub-Fund may not be appropriate for investors

who plan to withdraw their money within 5 years.

Terms to Understand

Derivatives Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

Bonds Securities that represent the obligation to repay a debt, with interest.

You can place orders to buy or sell shares at any time. Orders placed before 2 PM (Luxembourg time) and on any day that is a banking day in Luxembourg and in the country or countries where the [majority of the] Sub-Fund's assets are invested will generally be processed that day.

The Sub-Fund offers both accumulation shares (shares in which any dividends received are added to the share price) and dividend shares (shares in which any dividends received are paid out to investors).

Risk and Reward Profile

- Historical data may not be a reliable indication for the future.
- Risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk-free'.

The Sub-Fund's risk level reflects the following:

- As a category, bonds are more volatile than money market instruments but less volatile than shares.
- The Sub-Fund invests in a single geographical area.

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

Counterparty risk The Sub-Fund could lose money if an entity with which it does business becomes unwilling or unable to honor its obligations to the fund.

Default risk: The issuers of certain bonds could become unable to make payments on their bonds.

Derivatives risk Certain derivatives could behave unexpectedly or could

expose the Sub-Fund to losses that are significantly greater than the cost of the derivative.

Liquidity risk Certain securities could become hard to value, or to sell at a desired time and price.

Operational risk The Sub-Fund may lose some or all of its investments as a result of human error, system and/or process failures, and failure at its service providers.

More information in relation to risks in general may be found in the "Risk Considerations" section of the prospectus.
